Dear Art,

The Jerry Ray story arrived today, Thanks, much, for it may have a clue in it. Not for sure, but is anything which such people?

However, if this little things has any meaning, it can have much meaning, and I'd like to be able to decide. On the basis of this story and anything I can out with it, this is not possible.

So, if it is not too much trouble, can you get anything further from the wire service? Like local coverage, the small Georgia papers, the Athens, Ala., paper or papers, if any? Savshhah, Atlanta?

My interest is not alone in this incident. The clue I may have detected relates to the overall picture, where some of the hues are not even grey.

If this involves much trouble, forget it.

Best regards,
